Subject: RE: presentation slides

thanks Kristin ! Nice job - they look really great. I'll be sure to keep the formatting intact.

Dave

Did you get this???? The very first slide would be for the Mayor during opening remarks..the rest would be for navigational dredging...I will present up until the slide that reads CAD technology at which point I will turn it over to APEX...Dave make sure inserting this into your slides doesn't mess up the formating on ours -- Or I will have to "ride" you!!! Anyway, since when is COB 4:28??? I had this done by 5PM! then lost it... Hopefully you get this>>> THANKS! -K

Subject: presentation slides

I'm here to ride you guys to PLEASE get your slides to me ASAP. I have limited availability over the next few days in which to incorporate your slides. I'll be as flexible as possible but you may have to have your own file/disk if it gets too late....

thanks - Dave
